- 3) FCC <https://www.freecodecamp.org/irshad2809/front-end-certification>

Portfolio : <https://irshad2809.github.io/irsh>

Projects:

- **Major Projects :**

Title : Attack Detection System

Frontend : JAVA

Backend : SQL Server 2008

Summary : In this system, we extant a DoS attack recognition system that uses Multivariate Correlation Analysis (MCA) for accurate network traffic representation by extracting the geometrical links between network traffic features. Our MCA based DoS attack detection system employs the principle of incongruity-based detection in attack recognition. This makes our solution capable of noticing known and unknown DoS attacks well by learning the patterns of authentic network traffic only.

- **Mini Projects :**

Title : Feedback Management System

Frontend : JAVA

Backend : MongoDB

Summary : This system maintains all the information about students and their Feedback about the teachers.

Personality Skills:

- Positive attitude and Self-motivated.
- I have qualities to lead work effectively.
